WHAT IS TELECOM MARKETING?

The accessibility of Mobile Phones is very usual these days and the usage of Mobile is increased among adults by 5 % in last three years, Telecom Marketing is all about getting connected with your audience at right time in right place. The place i.e. Mobile Phone is the platforms where an individual spent his hours.

Telecom marketing encompasses all marketing efforts through this Mobile and sending the right messages/Calls/Media Messages/Alerts etc. to an individual. As the gadget is now an essential need on the contrary it is also meeting the individual marketing objective.

SERVICES WE OFFER:

Bulk-SMS

Stew-India provides the exclusive Premium Bulk SMS Service by which you can promote/coney information to your target audience in the form of Message on his Mobile Phone in Seconds. Send a generic message to all recipients or custom message to each recipient based on a template. With our scalable and robust interface, you can send thousands of SMS messages per second based on your business needs. Schedule messages to go at a particular date & time, or setup recurring campaigns.

Bulk Voice Calls

Stew-India also serve the Facility of Premium voice call services where every target audience will get a call from your Phone number or our number. your Pre-recorded voice will be sent on their Phone. Record message in your own/Professional voice convert text to speech or upload a clip and transmit immediately as phone calls to your group. You can also set the number of times the call is to be retried or set up an expiry time for the call.

Bulk Emails

Stew-India serve the facility of sending your Marketing Messages, Newsletter, Updates, Coupons, and invitations typically comprise Bulk emails to your target audience in seconds without any limitations of receiver.

Missed call services

Stew-India helps to Generate leads from your ads, Sign-up users for your loyalty program, Live event polls etc using a missed call number. Follow the missed call with a SMS or a call from your sales team. Responses for a missed call number are 10 times more as compared to a regular phone number. Especially for the consumers who are not present on the internet and helps in collecting feedback.

Data Management:

Stew-India has a largest repository of data and we will help you to reach your right audience by our tremendous sorted data and helps you to do your marketing on the better managed data.

Lead Generation Funnels:

Stew-India uses the various online tools and help to expand your reach with the potential audience online. Facebook | Instagram | You-tube | Social Platforms | Yelp | Twitter | are the most preferred choices. We Generate Fruitful leads from these panels and give an escalation in your sales which directly helps in business growth.
